DETAILED ACTION

The last office action is hereby withdrawn in view of Applicant's arguments. However, a new ground of rejection is cited herein based on Applicant's arguments requiring the substituted phenol can not be resorcinol, as in claims 34 and 36 on which claims 43-45 and 62-65 indirectly depend.

Claims 43-45 and 62-65 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for a phenol or a 3-substituted phenol or a 3,5-disubstituted phenol, does not reasonably provide enablement for the proviso that the 3-substituted phenol can not be resorcinol. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the invention commensurate in scope with these claims.

Note that the specification at page 5, lines 2-9, does disclose the use of a 3,5-disubstituted phenol in that R4 and R5 each independently represent Hydrogen or hydroxyl group. In the case of R4 or R5 is hydrogen and R5 or R4, respectively, is hydroxyl group, then a resorcinol is included.
